Rules: Neverjuice Discord server

Welcome! Before you start chatting with us, please take a moment to read through and agree to our community rules:

1. Be kind, respectful, and inclusive: good vibes only!
2. Keep all chats PG and safe for everyone. No NSFW or graphic content, this includes your profile, text, VC, links and images.
3. No hate speech, harassment, or personal attacks of any kind will be tolerated.
4. No spam, disturbing messages/sounds, trolling, promotion of other Discord servers, or excessive self-promotion. This includes DMing fellow members. Share cool stuff in the correct channels, but don't overdo it.
5. Don't promote piracy and cheating, or beg anyone to buy you the game.
6. Avoid heavy or political conversations in the public server. The same goes for sensitive mental health discussions: we care, but we're not always equipped to help.
7. No imitation of server staff or devs in your profile name/picture.
8. Stick to English-only to keep things clear and easy to moderate.
9. Follow Discord's [Terms of Service](#) and [Community Guidelines](#). You must be 13+.

These rules are subject to change at any time, as the devs and admins see fit. The server staff always have the last word and reserve the right to ban.

When in doubt, DM @ | Community manager. We're here to help!
